

Commonwealth Scholarships for Master's and PhD study

For developing Commonwealth country citizens

2016 prospectus

INTRODUCTION

The Commonwealth Scholarship and Fellowship Plan (CSFP) is one of the largest and most prestigious scholarship schemes for international study in the world. Since it was established in 1959, around 30,000 individuals have benefited – 25,000 of them have held awards funded by the UK government, managed by the Commonwealth Scholarship Commission in the United Kingdom (CSC).

This prospectus describes the Commonwealth Scholarships for Master's and PhD study in the UK offered by the CSC for citizens of developing Commonwealth countries in 2016. These scholarships are funded by the UK Department for International Development (DFID), with the aim of contributing to the UK's international development aims and wider overseas interests, supporting excellence in UK higher education, and sustaining the principles of the Commonwealth.

For information about the other scholarships and fellowships offered by the CSC, visit www.dfid.gov.uk/cscuk. For information about Commonwealth Scholarships offered by other Commonwealth countries, visit www.csfp-online.org

The Commonwealth Scholarship Commission's Secretariat is provided by the Association of Commonwealth Universities (ACU), which is responsible for all matters concerning selection, academic studies, and evaluation. The British Council is responsible for supporting award holders in their home countries before and after their awards.

COMMONWEALTH PhD SCHOLARSHIPS

Up to 36 months' support towards completion of a three-year full-time doctoral postgraduate qualification at an eligible UK university.

Purpose: To enhance individual teaching and research capacity leading to increased institutional capacity in academic and other sectors in Commonwealth countries, and to contribute to UK higher education and research by attracting high-calibre international candidates and encouraging links and collaboration.

Intended beneficiaries: High-quality graduates who have the potential to become influential leaders, teachers, or researchers in their home countries, and whose proposed research topic has been described to the satisfaction of the selection committee as having a developmental and leadership focus.

COMMONWEALTH MASTER'S SCHOLARSHIPS

12 months' support towards completion of a full-time taught postgraduate qualification at an eligible UK university. The CSC funds one-year Master's programmes only, and does not fund MBAs.

Purpose: To contribute to development needs of Commonwealth countries by providing training for skilled and qualified professionals and academics, and to contribute to UK higher education and foreign policy aims by encouraging collaboration and links.

Intended beneficiaries: High-quality postgraduate students who have the potential to enhance the development of their home countries with the knowledge and leadership skills they acquire.

- By October 2016, hold a first degree of at least upper second class (2:1) honours standard, or a second class degree and a relevant postgraduate qualification (usually a Master's degree)

The CSC promotes equal opportunity, gender equity, and cultural exchange. Applications are encouraged from a diverse range of candidates.

HOW TO APPLY

You should apply to study at Master's/PhD level at a UK university with which the CSC has a part funding agreement. Part funding agreements are at the discretion of individual universities. For a list of universities that have already agreed to part fund Commonwealth Scholarships, visit <http://bit.ly/cscuk-uk-universities>

All subject areas are eligible – although you should note that the CSC's selection criteria give priority to applications that demonstrate the strongest relevance to development.

You must apply to one of the following nominating bodies in the first instance – **the CSC does not accept direct applications for these scholarships:**

- National nominating agencies – this is the main route of application. For a full list of agencies and contact details, visit <http://bit.ly/cscuk-agencies>
- Selected universities/university bodies, which can nominate their own academic staff. For a full list of eligible universities, visit <http://bit.ly/cscuk-scholarships-developing-cw>
- Selected non-governmental organisations and charitable bodies

All applications must be made through your nominating body in your home country. Each nominating body is responsible for its own selection process. You must check with your nominating body for their specific advice and rules for applying, and for their own closing date for applications. The CSC does not impose any age limit on applicants, but nominating bodies may do so in line with their own priorities.

You must make your application using the CSC's Electronic Application System (EAS) – information on how to use the EAS, including detailed guides, is available at <http://bit.ly/cscuk-scholarships-developing-cw>.

Your application must be submitted to and endorsed by one of the approved nominating bodies listed above. The CSC will not accept any applications that are not submitted via the EAS to a nominating body in your home country.

All applications must be submitted by **19 November 2015** at the latest.

Awards made by the CSC are subject to the ongoing endorsement of the nominating body. The CSC cannot accept nominations for these scholarships from other organisations or applications directly from individuals; such applications will not be acknowledged.

Universities or other organisations that wish to be invited to nominate candidates for these scholarships should write to the Executive Secretary, Commonwealth Scholarship Commission in the UK, Woburn House, 20-24 Tavistock Square, London WC1H 9HF, UK.

SELECTION PROCESS

Each year, the CSC invites each nominating body to submit a specific number of nominations. The deadline for nominating bodies to submit nominations to the CSC is 17 December 2015.

The CSC invites around three times more nominations than scholarships available – therefore, nominated candidates are not guaranteed to be awarded a scholarship. There are no quotas for scholarships for any individual country. Candidates nominated by national nominating agencies are in competition with those nominated by other nominating bodies, and the same standards will be applied to applications made through either channel.

Each nominated candidate's application is first considered by a member of the CSC's panel of advisers with expertise in the subject area concerned, and then by the CSC's selection committee in competition with other candidates.

Applications are considered according to the following selection criteria:

- Academic merit of the candidate
- Quality of the proposal
- Potential impact of the work on the development of the candidate's home country

TENURE AND PLACEMENT

Awards are tenable at any approved UK university or higher education institution with which the CSC has a part funding agreement (as mentioned previously) for a specific programme of study or research. Awards are not restricted to any particular subject areas. Awards are to obtain one degree; funding will not be extended to enable candidates to complete a qualification in addition to or higher than that for which the selection was made. Awards are made in respect of **full-time study only** and no other course of study may be undertaken at the same time.

You must make clear in your application which qualification you are applying for. This will enable the CSC to consider your application in the correct category. Applications which do not make this clear may be considered ineligible.

In your application, you are expected to identify at least one but preferably three universities and courses/supervisors (for research degrees) that you think are the most appropriate for your study, and to explain your reasons. This is important because the CSC will not change the university or course of a provisionally selected candidate after the point of selection, unless exceptional information becomes available that could not have been foreseen at the time of application. The CSC will make the final decision on institution of study, and reserves the right to overrule any preferences indicated by the candidate. The CSC will consider the suitability of the course and its value for money when deciding on any overrule. Tuition fees for at least the current academic year are available on university websites.

You must take the necessary steps to secure admission to your preferred universities in advance of your scholarship application. Many courses have strict admission deadlines. You should check admission requirements carefully when applying.

If you are applying for PhD study, you must provide a supporting statement from a named supervisor from at least one of the UK universities to which you are applying. Applications without any statements will be considered ineligible. You are strongly advised to provide a supporting statement from a supervisor at your first choice university. If you do not, the CSC reserves the right to select you for placement at another university for which you have provided a supporting statement.

If you are selected for an award but have already started your PhD study by the time of your selection, your award will begin at the start of the next academic year (i.e. in September/October following your selection) and will end after you have been registered for your PhD for 36 months. This is in line with the CSC's policy on PhD length. Agreement on part funding in these circumstances is at the discretion of the university – you should check with the universities at which you wish to study before applying.
